WAVE 1 TANKS

RELEASED
OCTOBER 2020

WOT02 STUG III AUSF G

Combining excellent Survivability and Initiative for a Tank Destroyer, the StuG III Ausf. G is able to slug it out with enemy tanks. Upgrade the Commander with Eagle Eye to get the most out of your hits.

WOT03 M3-LEE

The M3 Lee gives players a low Cost, but effective Medium Tank, with plenty of space for Crew. It also has the unique Upgrade that allows it to use the turreted 37mm gun, cancelling the Assault Gun special rule.

WOT04 SU-100

This Tank Destroyer is feared and with good reason, Firepower 6 and Survivability 2 means that you cannot afford to leave this killer alone. Packed with Initiative Upgrades its one weakness can be mitigated.

WOT05 VALENTINE

The Valentine is the first Light Tank in the game and whilst it isn't the fastest, thanks to its strong all-round armour it can afford to get in the middle of the enemy and survive long enough for its allies to benefit from its scouting.

WAVE 2 TANKS

RELEASED
NOVEMBER 2020

WOT06 Pz.KPFW. IV AUSF H

A solid workhorse of a tank, the Pz.Kpfw. IV Ausf H brings a dependable stat line that all other tanks are judged against. With a Crew of five it can be tuned to complete any role.

WOT07 M4A1 SHERMAN

One of the most iconic tanks ever built, the M4A1 Sherman is the basis for so many great designs. Looking for some a little different, add a 105mm Gun M4 to add some High Explosive to your Platoon.

WOT08 T-34

A real speedster, the T-34 has Mobility of 3 allowing it to keep up with the fastest tanks. Not sure that the Firepower 4 is enough, then upgrade to a 57mm ZIS-4 Gun. It increases the Firepower at the cost of less Critical Hits.

WOT09 CROMWELL

The Cromwell matches incredible Mobility with outstanding Initiative, this is great without any Upgrades. Want to use it aggressively, upgrade the Radio Operator with Call For Vengeance and when it dies everyone benefits.
